EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eugene Varndell, Jr. on 2/1/07.

The application has been amended as follows:

In the claims, cancel claims 19-35 and add new claims 36-47 as attached.

2. Claims 36-47 are allowed.

The following is an examiner's statement of reasons for allowance: Independent claims 36, 41, 46, and 47, when considered as a whole, are allowable over the prior art of record. Specifically, prior art of record fail to clearly teach or suggest the means for responsive to a detected abnormality in the state of the workinh machine, displaying a caution mark indicating the detected abnormality at the display segment corresponding to the determined state indication mark having lowest display priority. Dependent claims 37-40, 42-45 further adds limitations to the allowable subject matter of the corresponding independent claims, thus are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
